

Client Bill of Rights

The faculty and students of the University of Southern Indiana Dental Hygiene Program are here to provide you with comprehensive dental hygiene care. As a client in our clinic you have the right to expect:

- To be treated with respect and consideration without discrimination.
- Confidentiality of all information related to your care.
- A thorough assessment of your needs.
- To receive complete and current information about your oral health condition and treatment.
- To be treated as a partner in care, participating in goal setting and planning of treatment including the opportunity to discuss treatment, treatment alternatives, and expected outcomes of treatment with the supervising dental hygiene faculty and the dental hygiene student.
- To be informed of all aspects of your care and sign an informed consent.
- To receive treatment that meets the standard of care in the dental hygiene profession which includes dental hygiene care based on your individual needs.
- To be taught how to achieve and maintain your oral health.
- Reasonable continuity of care and completion of treatment.
- Appropriate and timely referrals for other needed services.
- The University of Southern Indiana Dental Hygiene Program to comply with the infection control guidelines mandated by the Occupational Safety and Health Administration (OSHA) and recommended by the Centers of Disease Control and Prevention (CDC).

New Directions to USI Campus

- From I- 62 (Lloyd Expressway) take University Parkway Exit. Turn south at top of exit.
- Take University Parkway to entrance of USI Campus, turn right on first road (Clarke Lane) just before the Health Professions Center. (Star ★ on Building!)
- Park in lot behind from the HP Center.
- Enter through the double doors at the NW corner of building. The Dental Hygiene Clinic is on the left of entrance.

Dental Hygiene Clinic

Thank you for your interest in becoming a client in the **University of Southern Indiana Dental Hygiene Clinic**. The Dental Hygiene Clinic offers dental hygiene services to adults and children of all ages. All services are performed by students and are supervised and evaluated by dental hygiene faculty.

You can plan on approximately 3 1/2 hours being devoted to your care. Please keep this in mind when making your appointment. Upon completion of treatment, we recommend you also make an appointment with your family dentist for an examination and any dental treatment needed.

Appointment Times

Fall Semester (Sept—Dec)

Mondays and Wednesdays
8:30 am and 1:00 pm

Monday through Thursday

Medical Evaluation

If a client has a medical condition which requires consultation with a physician, treatment may be delayed until written approval for treatment is received from your physician.

Did you know...

Periodontal disease, a serious form of gum disease, may be associated with greater risks for heart disease and strokes as well as diabetes management?

Bacteria from periodontal disease may enter the blood stream causing blood clots that clog the arteries and cause a build-up of fatty deposits inside the heart. Periodontal disease may also make diabetes harder to control by causing blood sugar levels to rise. If you have heart disease or a heart condition, taking care of your teeth and gums is very important, not only for your smile, but, for your heart as well.

(American Dental Association; Cigna Dental)

Oral Cancer strikes an estimated 34,360 Americans each year?

On average, only half of those diagnosed with this disease will live more than 5 years. The best way to prevent oral cancer is to avoid tobacco and alcohol and have regular dental examinations.

(American Cancer Society)

**So...brush, floss and see your
dentist hygienist regularly!
You'll have a healthier life and
smile!**

The Dental Hygiene Program at the University of Southern Indiana is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education.
